Housing Dept. July 2021 Newsletter

Tansi,

Summer is now fully upon us, and what a kickoff! Record breaking temperatures from the current heat wave. An 84-year-old record was broken on Saturday June 26th, when Lytton, BC recorded a high of 46.1 degrees C! This is the hottest temperature recorded in Canada to date. Please stay cool and hydrated!

The following activities that you can perform to assist you in your regular home and yard maintenance:

- Mow your lawns;
- Vegetation control; check your lawns and gardens for weeds;
- Check flooring for wet or soft spots;
- Check the piping in your basements/crawlspaces and wipe off/up condensation that may be forming on the pipes, or dripping on the floor;
- Check security of all handrails and guardrails;
- Vacuum floor grates/ covers; and
- Add 2 cups water to basement floor drains.

Please note that due to our current Housing Maintenance short-staffing issue, and Annual Leave, we will not be performing any Housing Maintenance beyond Emergency Repairs, from July 1-26th, 2021. We are currently trying to recruit a new Housing Maintenance Assistant.

Please continue to call in and submit your Maintenance Requests, but please do not expect those of a regular maintenance nature to be scheduled for maintenance until after July 26th, as only emergency repairs will be performed by the O&M Dept. staff, in the interim.

Mussi,
Gil Davis
