

Grader Operator

Location: Kitimat, BC, Canada

Job ID: R12365

Job Status: Full-time

Description

Job Summary:

We are seeking experienced Grader Operators for our pipeline construction project based out of Kitimat, BC. The successful candidate will be responsible for operating a Grader for snow removal to maintain access roads and right of way in accordance with quality, safety and efficiency standards.

Join our team in Kitimat!

Essential Responsibilities:

- Effectively and safely operates graders to move snow, utilizing machine specific controls and machine attachments to complete all necessary tasks related to pipeline construction. This includes operating on adverse terrain, in winter operations, and/or near other equipment and power lines.
- Operates in crowded, fast-paced working environments, and exercises extreme caution with awareness of potential situational hazards to ensure site safety.
- Interprets verbal and non-verbal communication (including hand signals) from operators, ground personnel and swampers, and acts accordingly.
- Performs mechanical inspections and servicing including controls and operations, completing logbooks, performs maintenance and adjustments, ensures good housekeeping, and performs machine lubrication.
- Performs effective operation of equipment by recognizing unusual machine movements and sounds.
- Recognizes existing and potential hazards and knows how to identify these through conducting a field level pre-job hazard analysis, checking the machine for hazards and assessing any tasks before start.

Qualifications:

- Minimum 3 years of experience operating graders and other heavy equipment experience
- Previous snow removal experience required
- Working in mountainous terrain and steep slopes highly regarded
- Previous experience working on mainline pipeline projects will be highly regarded.
